

For Sale, Land, Field, Nicosia, Tseri, 10,777m²

For Sale : **€ 135,000**

Description
For Sale | Agricultural Field of 10,772 m² in Planning Zone Γα4 in Tseri, Nicosia
An agricultural field with a total area of 10,772 m² is available for sale in Tseri, Nicosia District. The property offers an interesting opportunity for investors and buyers seeking a substantial parcel of agricultural land for long-term investment or potential agricultural use.
The field falls within Agricultural Planning Zone Γα4, featuring a building density of 10% and a coverage ratio of 10%, with a maximum allowance of two floors and a building height of 7 metres, subject to the applicable planning regulations and approvals. Based on the total land area, the planning coefficients correspond to a theoretical maximum buildable floor area of approximately 1,077.20 m² and a maximum building footprint of approximately 1,077.20 m². These calculations are indicative and do not automatically guarantee permission to construct residential or other buildings, as development within agricultural zones is subject to specific planning restrictions and approvals.
An important characteristic of the property is that it is landlocked, without direct access to a registered public road. Any future development or use requiring access would therefore depend on investigating the possibility of securing legal road access and obtaining the necessary permissions.
The property's substantial size and agricultural zoning make it an interesting option for buyers considering agricultural activities, land ownership or long-term investment, subject to the applicable regulations and access requirements.
Located in the wider Tseri area, the field benefits from its position within Nicosia District, with surrounding agricultural and residential communities.
Important points of interest in the wider area include Tseri Town Centre | Tseri Agricultural Area | Lakatamia | Latsia | GSP Stadium.
Combining its 10,772 m² total area, Agricultural Planning Zone Γα4, 10% building density, 10% coverage ratio and allowance of up to two floors with a maximum height of 7 metres, this agricultural field represents an opportunity for long-term land investment in Tseri.
