For Sale : **€ 490,000**

Description
In the heart of Geroskipou, daily life unfolds on foot. The town centre and local schools are both within walking distance, so mornings can begin with a stroll rather than a drive. Here, a generous plot holds not one home but several possibilities. The main building is a two-storey detached house arranged as two separate residences. The recently renovated ground floor has a living room with dining area, a separate kitchen, a study and three bedrooms, two of them en-suite with showers. Upstairs, the second home mirrors that comfort with its own living and dining room, kitchen, office and three bedrooms, the main one en-suite. Each floor opens onto verandas, perfect for unwinding as the day winds down. Outside, a paved courtyard and garden sit alongside a communal swimming pool, inviting long afternoons outdoors. On the eastern side, a single-storey detached house with auxiliary buildings is currently used as a private learning centre. The land is zoned about half for residential and about half for commercial use. A distribution agreement is in place for the property. Two homes, a working space and a central setting, all on one plot in Geroskipou.
