Description
Within Pegeia, this field of 20,068 m² is a large, rectangular piece of sloping land with direct access from a public road along one boundary. It lies a short way from the main road linking Pegeia and Kathikas, with good access to the centre of Pegeia and the neighbouring communities.

Most of the land is zoned for agriculture and suits farming or planting, while a small part falls within a residential zone. It is a sizeable, uncomplicated field with a regular shape and its own road frontage.
