

For Sale, Land, Field, Larnaca, Lefkara Kato, 4,348m²

Village life is right on the doorstep here. This residential...

For Sale : **€ 51,000**

Description
Village life is right on the doorstep here. This residential field sits a few minutes' walk from the restaurants and cafés of Kato Lefkara, with the lace-making village of Pano Lefkara and the countryside around Dipotamos Reservoir a short drive away.

As buildable land with a residential zoning, it offers a generous setting for a family home. The plot has a regular shape and a gently inclined surface, which lends itself to a home that follows the lie of the land. Schools, supermarkets, shops and public service offices are all within a short drive, so daily errands stay simple.

The motorways linking Larnaca, Limassol and Nicosia are a drive away, keeping the island's main towns within comfortable reach while home remains rooted in authentic Cypriot village life. This sale is for a half share of the land.

A place where a morning coffee in the village square could become part of everyday life, with the hills and the reservoir close at hand.
