For Sale : **€ 100,000**

Description
Life in Thrinia unfolds at a gentle pace, and this sizeable field of 9,994 m² puts you within walking distance of the village centre. You can stroll in to greet neighbours and share in the everyday life of the community, then return to your own open ground.

The land has a regular shape and a sloping surface. About half of it lies in a residential zone, with room for a home, while the other half is agricultural and suited to farming. That mix lets you picture a house on one part and land to cultivate on the other, all within a single holding. The land has no direct road access.

When the weekend calls for time outdoors, Evretou Lake is a drive away, a natural setting for long walks and slow afternoons. Back in Thrinia, the village is close by and the land is yours to shape. Make it your own corner of Paphos.
