

For Sale, Land, Field, Larnaca, Psevdas, 4,570m²

Authentic Cypriot village life sets the tone for this level...

For Sale : **€ 42,000**

Description
Authentic Cypriot village life sets the tone for this level field in Psevdas, a welcoming Larnaca community where everyday life still moves at a gentler pace. Zoned for residential use, the land offers a generous canvas for a future home within easy reach of the village centre.

The ground is flat throughout, with an irregular outline that leaves room for imaginative planning. Around it, village life carries on as it always has. Cafés, restaurants, schools, supermarkets, parks and green spaces are all a short drive away, and the neighbouring villages of Mosfiloti and Agia Anna sit close by too. Larnaca International Airport is about 15 km away, which keeps the coast and the wider island comfortably within reach.

This is a setting rooted in a strong local identity, away from dense urban development and close to the rhythms of rural Cyprus. Owning a field in Psevdas means a stake in a landscape-led corner of Larnaca District, with the convenience of nearby towns never far away. This sale is for a half share of the land.

Level residential ground, a short drive from the heart of a characterful village, is an appealing balance of setting and simplicity.
