Description
Authentic Cypriot village life starts right at the edge of this residential field in Drymou, just a short stroll from the village church and the centre of the community. With 3011 m² of land, there is generous room to picture a family home, set among traditional village surroundings rather than dense urban development.

The residential zoning points naturally to a home. The land is irregular in shape with a sloping surface, so a thoughtful design that works with the ground could make the most of it.

Daily needs are well covered. Supermarkets, schools, restaurants and cafés are all a short drive away, as are parks and green spaces and the neighbouring villages of Lasa and Thrinia. Main roads, a petrol station and public service offices sit a little further off, with the motorway reachable in the wider region.

It is a generous piece of Drymou, close to everything that makes the village feel like home, with the space to build a life around a slower pace and a close-knit community.
