Description
Village life in the Paphos hills starts right here, with a residential field just a few steps from the heart of Drymou. Shops, cafés and the everyday rhythm of the community are close at hand, while the neighbouring villages of Lasa and Simou are a short drive away.

The land is made up of two adjoining parcels offered together as one holding, giving a generous 2054 m² to work with. Its surface is smooth and even, and although the outline is irregular, it gives you real freedom to plan a home around the space. Direct road access adds a practical advantage from day one.

Residential zoning means you can picture a family home here, set in authentic village surroundings rather than a busy resort. Supermarkets, schools, parks and restaurants are all within a short drive, and the main road network is easy to reach when town calls.

A generous, level plot near the village centre is an uncomplicated starting point for building a life rooted in traditional Cypriot village charm.
