Description
Two adjacent fields in Tsada, Paphos, come together as one agricultural holding of 8,779 m². The land lies in a quiet area within a natural, rural landscape. The village centre and the villages of Koili and Kallepeia are a short drive away, and the Limassol–Paphos Motorway is within a drive.

The combined plot has an irregular shape and an uneven surface, and it is reached by an unregistered dirt track. Its agricultural zoning suits farming or planting. This is a sizeable stretch of farmland in Tsada's countryside, sold as a single property.
