For Sale : **€ 14,000**

Description
Four adjoining fields in Agios Dimitrianos come to the market together as one agricultural property, giving a combined area of 5,093 m² in an open countryside setting. The ground is irregular in shape with a gentle slope, and the land is reached by a dirt track. Its agricultural zoning suits farming or planting.

The village centre and neighbouring Kannaviou and Melamiou are a short drive away, with main roads and a petrol station within easy reach and the Limassol–Paphos Motorway further afield. Sold as a single unit, this is a versatile piece of farmland with room to work.
