Set between the village of Korakou and neighbouring Temvria,...

For Sale : **€ 285,000**

Description
Set between the village of Korakou and neighbouring Temvria, this large field of 35,452 m² has village life on either side. Most of the land lies in a residential zone, while a smaller part is agricultural.

Together with two adjoining fields, the land has planning permission for division into a total of 32 residential plots. That gives a clear sense of what this ground can become: a new cluster of homes between two villages. The field has road access, though its surface is uneven and its shape irregular.

The setting invites you outdoors. The Solea Reservoir is a short drive away, and the woodland of Troodos National Forest Park lies within a longer drive. Everyday life stays close as well, with the village centre a short drive from the land.

A large stretch of residential land between Korakou and Temvria, with its future already sketched out in plots.
