For Sale : **€ 110,000**

Description
Village life sets the tone for this residential field in Ormideia, where everyday comforts sit close at hand and a green space runs along one edge of the land. Supermarkets, cafés, restaurants and the village centre are all a short drive away, and the neighbouring village of Xylotymbou is just as easy to reach. Schools and the Larnaca to Agia Napa motorway are a drive away.

The land extends to a generous 1416 m². It is flat, almost rectangular and south-facing, with direct road access, a simple and well-proportioned shape to plan around. Its residential zoning points to a home of your own in authentic Cypriot village surroundings.

An old house of about 60 m², built in 1940, stands on the plot and has no economic value.

What stays with you is the setting: level, sun-facing land in a close-knit community, with a green space alongside and the rhythm of Ormideia all around.
