For Sale : **€ 96,000**

**Description**
Close to the everyday rhythm of town yet open in feel, this residential field in Paralimni lies within the town's urban area. The zoning there allows homes and offices. It is a generous plot with a gentle slope across the ground, giving room to picture a future home in a well-served part of the municipality.

Daily needs are all a short drive away. Supermarkets and shops, schools, cafés and restaurants, medical centres and pharmacies are within easy reach, along with the public service offices of the town centre. For time outdoors, Paralimni Lake is close by, and the neighbouring community of Kapparis is only a short drive further.

Part of the appeal is the balance: a setting that feels uncomplicated, in a town where everything you need is never far from home. This sale is for a one-third share of the land.

Generous residential land on the edge of town life, with the lake and the shops close at hand, makes a versatile proposition in a much-loved corner of Famagusta.
