For Sale : **€ 80,000**

Description
In the Larnaca community of Xylotymvou, a sizeable piece of flat residential land invites you to imagine a home of your own taking shape. The whole field covers 10,854 m², and its residential zoning gives it room for a home within an established community setting.

The ground is level throughout, with an irregular outline that leaves space to think freely about how a house and its surroundings might sit on the land. It is a straightforward, open piece of ground, and its flat surface lets you picture the plans laid out across it from the moment you walk it.

The land has no direct road access. A distribution agreement is in place, under which the share for sale corresponds to a defined part of the field marked on a plan. The sale is of a 1/3 share.

Flat ground, a residential setting and the character of Xylotymvou come together here, offering a place to start shaping a future home in a familiar corner of Larnaca.
