For Sale : **€ 75,000**

Description
Village life in Avgorou sets the tone here. The village centre is a short drive away, and schools are within reach by car, so daily routines stay close at hand in this corner of the Famagusta district.

The land is large, level and rectangular, its 6,658 m² laid out in a clean, uncomplicated shape that is easy to read at a glance. It has direct road access along one side, with a long frontage that makes arriving straightforward.

Residential zoning gives the field room for a home, set within the familiar rhythm of a Famagusta village and its surroundings. The even ground and simple outline make it an easy piece of land to picture plans on. The sale is for a 33/100 share of the field.

A level stretch of Avgorou with its own road frontage, close to everyday village life.
