For Sale : **€ 95,000**

Description
Rooted in authentic Cypriot village life, this residential field in Liopetri sits within walking distance of local restaurants and cafés. The village centre, schools, supermarkets and shops are all a short drive away. It is a setting with a strong local identity, yet far from cut off.

The land is level and generous, with an irregular outline. Its residential zoning points naturally towards a home of your own design. The neighbouring villages of Frenaros and Avgorou are close by, and parks, green spaces and everyday essentials are within easy reach.

Getting around is simple. The Larnaca–Agia Napa motorway is a short drive away, so journeys to Paralimni, Ayia Napa and the island's other towns are straightforward, while home stays rooted in the village. This sale is for a three-seventhshare of the field.

Level residential land, a welcoming village and the lively east coast within easy reach: an appealing balance of location and flexibility.
