

For Sale, Land, Field, Larnaca, Xylofagou, 2,471m²

Village life in Xylofagou unfolds around this residential fi...

For Sale : **€ 35,000**

Description
Village life in Xylofagou unfolds around this residential field. Cafés and restaurants are within walking distance, and the village centre is close by. Local offices for everyday errands are within an easy walk too, while a school and shops are a short drive away.

The land is level and regular in shape, an even, uncomplicated canvas with room for a home. Its residential zoning allows a building of up to two storeys, and the land is also described as suitable for plot division or a residential development. The land has no direct road access.

Beyond the village, the ancient Makronissos Tombs are within a drive, a reminder of the long story of this corner of Larnaca. It is easy to picture an afternoon spent there before returning to the familiar rhythm of Xylofagou.

The sale is for a 1/2 share of the field. Level residential land, close to the village centre and its cafés, in a community with a living character of its own.
