For Sale : **€ 24,000**

Description
Agrokipia offers the easy rhythm of village life. The village centre, cafés, schools and a local shop are all a short drive away, and the nature spots of Klirou and the Mitsero mines lake are close enough for an afternoon outdoors.

This sizeable residential field covers 9,031 m² in total. Its residential zoning gives room for a home, set among the authentic village surroundings of the Nicosia countryside. The land has an irregular shape and an uneven surface, and it has no direct road access.

The neighbouring villages of Mitsero and Malounta are also a short drive away, so everyday needs and a wider circle of village life stay within reach. The setting is one of local character and open landscape, a place to imagine a home of your own taking shape.

The sale is a 1/3 share of the field. Under a distribution agreement, this share corresponds to the north part of the land.

A piece of Agrokipia's village landscape, with the lake and the village centre close at hand.
