Description
A field of 12041 m² in Kato Koutrafas, set in open Nicosia countryside within reach of the village centre. The land is regular in shape with an even surface, a well-proportioned parcel that is simple to lay out and work. It is zoned as agricultural land, in a landscape-led setting away from dense urban development, with the main village road not far off. The field has no direct road access of its own, though a registered road lies close by. A versatile piece of agricultural land, with even ground across its full 12041 m².
