For Sale : **€ 70,000**

Description
On the edge of Strovolos, right beside Latsia and close to the GSP stadium, this large field of 10,020 m² lies in the Apostolos Varnavas and Agios Makarios quarter, part of the everyday life of Nicosia's southern suburbs. Supermarkets and shops are within walking distance, so daily errands can be done on foot.

The ground is even, and the land has long frontage onto two roads, which gives it direct road access. A green space and a community facility area run along one of its boundaries, so public open ground sits right next to the land.

Most of the land lies in a residential zone, and a home is its natural use. A small part falls within a protection zone. The sale is for a 1/15 share of the field.

A sizeable stretch of residential land in Strovolos, with level ground and road frontage on two sides, set between the stadium and the neighbouring streets of Latsia.
