Description
Strovolos is one of the busiest and best-connected parts of Nicosia, and this industrial field in Agios Vasileios puts a business base right in the middle of it. The setting combines everyday convenience with quick links across the capital. Main roads and motorway junctions are a short drive away, and neighbouring Latsia is close by.

The land is zoned for light industrial use, which opens the door to a workshop, a storage operation or another practical business setting. The plot covers 1580 m² in total. Its rectangular shape gives an uncomplicated layout, while the ground has a sloping surface.

The surroundings are just as practical for daily working life. Public service offices are within walking distance. Supermarkets, cafés, restaurants, petrol stations and a bus station are all a short drive away. The GSP stadium and the American Medical Center are also nearby, both well-known landmarks in this established part of Nicosia.

This sale is for a one-third share of the land. What stays with you is the location: functional industrial land in Agios Vasileios, Strovolos, with the whole capital within easy reach.
