Description
This flat agricultural field in Arediou, a village in the Nicosia district, covers 4,348 m² of open countryside. The ground is level, which makes it straightforward to work, and its irregular shape takes in a good-sized stretch of land. Its agricultural zoning suits farming and planting. The field does not have direct road access of its own.

From this part of Arediou, the village centre and petrol stations are a short drive away, as are the neighbouring villages of Agios Ioannis and Agioi Trimithias. The main roads and the motorway towards Nicosia are a drive away. This is level, open farmland of a practical size.
