For Sale : **€ 15,000**

Description
In the community of Kampos, in the Nicosia district, a residential plot of 335 m² offers room for a home of your own. The local church is a short walk away, and parks and green spaces lie within walking distance, so everyday life here can unfold at an easy pace.

The residential zoning allows a building of up to three storeys, giving you the freedom to shape a home around your own plans, from the layout to the choice of materials. The land meets a public road at one corner, so it has direct road access. It is irregular in shape and sits on a slope, which any design will need to work with.

Beyond the community, Kykkos Monastery is a drive away, a reminder of the heritage that surrounds this part of Cyprus's interior.

A compact piece of Kampos, waiting for the home you have in mind.
