For Sale : **€ 27,000**

Description
Open countryside and a beautiful natural environment set the tone for this field for sale in Lympia, Cyprus, an inland Nicosia district community with a strong local identity. The land sits within easy reach of the village centre, where daily life keeps an unhurried pace and the authentic side of the island is close at hand.

The field covers 4014 m² of even ground with an irregular outline. Its residential zoning points to the general use of the area, a home in a landscape-led setting away from dense urban development. The land has no direct road access of its own, although a public road lies a short distance away.

For anyone drawn to traditional village surroundings within the Nicosia district, Lympia offers a slower rhythm and a closer connection to nature. This sale is for a one-quarter share of the field.

Level land, residential zoning and a natural environment worth stepping into: an honest piece of the Cypriot countryside.
