For Sale : **€ 11,000**

Description
Village life sets the tone in Moutoullas, where this residential field lies within walking distance of neighbouring Kalopanagiotis. It is a setting with character and a close connection to nature, as the Troodos National Forest Park is only a short drive away. The field covers 1,210 m² of residential land, offering room for a home in the heart of a village community. It has direct road access along one of its borders. The land slopes and has an irregular shape. Picture an easy afternoon wandering on foot into Kalopanagiotis, then setting off on a short drive into the forest park for a day spent outdoors. The everyday rhythm of two villages and the open landscape of the Troodos come together within easy reach, giving any plans here a warm and grounded backdrop. The sale is for a 2/5 share of the field. Unpretentious and full of village charm, this is land where a home among the villages of the Troodos could one day take shape.
