For Sale : **€ 33,000**

Description
An enclosed field of 11,121 m² in the countryside around Psimolofou, offered as agricultural land suited to both livestock and farming. Part of the ground is level, with a slope along another edge. This gives a versatile piece of land for grazing, cultivation or a mix of the two.

The field sits in an open countryside setting, away from dense development. Lakatameia, Tseri and Kato Deftera are a short drive away, as are main roads, petrol stations and the orbital motorway. The Nicosia–Limassol motorway is a little further on.

This is a sizeable, enclosed field with level ground and space for livestock and crops.
