For Sale : **€ 20,000**

Description
Set among the village life of Kato Deftera, this field for sale offers level ground on residential land, with Lakatameia and the wider Nicosia suburbs only a short drive away. It is a setting with a strong local identity, where village surroundings sit close to everyday convenience.

The land is almost rectangular with an even surface. That uncomplicated shape makes it easy to picture a future home here. The full plot measures 3642 m², giving a generous sense of space, and its residential zoning points towards a family home in a village setting. A few old sheds stand on the land and carry no value.

Daily life is well served. Schools, supermarkets, cafés, medical centres and parks are all a short drive away, as is the village centre. Main roads and motorway junctions are close at hand too, so the city stays within easy reach while home remains in authentic village surroundings.

This sale is for a two-twelfths share of the field.

Level ground, residential zoning and village character within easy reach of Nicosia: an appealing balance of location, function and flexibility.
