Description
Agricultural land in Palaiometocho: a field of 2174 m² within the village community, a short drive from the village centre and within walking distance of neighbouring Agioi Trimithias. The ground is even and the field has a regular, well-proportioned shape, which keeps planting and working the land straightforward. The surroundings are open countryside with a pleasant natural environment.

The field has no direct road access of its own, although a public road lies a short distance away. This sale is for a one-third share of the field. A level and versatile piece of farmland on the edge of a Nicosia village.
