Description

High-Yield Development and Strategic Acquisition

This large-size corner residential plot in Palouriotissa represents an elite opportunity for high-density urban development in one of Nicosia's most rapidly evolving districts. Falling within the Kα3 planning zone, the property boasts a substantial building density of 140% and a 50% coverage factor, specifically designated for the development of a modern four-storey residential or mixed-use building reaching up to 17 meters in height. The corner positioning of this site provides a distinct architectural advantage, offering enhanced visibility, dual-road frontage for easier access to underground parking, and increased natural light for all units. A significant financial benefit of this property is that it is not subject to VAT, providing an immediate and substantial saving for the developer or investor. In March 2026, Palouriotissa has emerged as a focal point for urban redevelopment, driven by its immediate proximity to the capital's central business district and the sustained demand for high-quality housing from young professionals and the academic community. The local real estate market in 2026 is further bolstered by the historic tax overhaul on January 1st, which included the full abolition of stamp duty and the removal of the 3% Special Defence Contribution on rental income, making this an ideal "Build-to-Rent" asset. For those seeking to capitalize on Nicosia's urban growth with a high-yield development, this plot offers a secure foundation for 3 decades of experience.

Description Large size corner plot located in Palouriotissa area, close to Frederick. The plot offers easy access to Nicosia, and it is suitable for a mixed development of four storey building. NOT SUBJECT TO VAT. Falling within the Residential Planning Zone Kα3, the plot allows for a modern architectural design with a maximum height of 17.0 meters across 4 floors. The property's placement within a high-demand urban pocket ensures a secure and appreciating asset in a community that values both historical character and modern accessibility.
