For Sale : **€ 12,000**

Description
Parks and green spaces lie right next door, and the cafés, shops and everyday services of Kaimakli are all within walking distance. This residential field sits in one of Nicosia's well-served neighbourhoods, where the city comes to life without feeling far from a breath of fresh air.

The land is regular in shape with an even surface, an uncomplicated parcel on residential land in an established urban setting. Restaurants, supermarkets, pharmacies, medical centres and schools are all close enough to reach on foot, and public service offices are nearby too. Main roads, petrol stations and bus stations are a short drive away, keeping the rest of the capital within easy reach.

For anyone drawn to convenient city living, Kaimakli offers a lively blend of local character and practical amenities. This sale is for a one-third share of the field.

A calm green outlook next door, with the whole neighbourhood on your doorstep: an appealing balance of location and everyday convenience.
