For Sale : **€ 7,000**

Description
Village life sets the tone here. This field for sale in Deneia sits within easy walking distance of the community centre and the local stadium, in the farming countryside west of Nicosia, where daily life moves at a slower pace and neighbours still know one another. It is a setting with a strong local identity and an authentic alternative to city living, while the capital remains within comfortable reach. The land covers 1004 m² in a neat rectangular shape, with a gentle incline that gives it some natural character. It has direct road access, which keeps arrival simple. The zoning is residential, placing the field among the homes and everyday rhythm of the village rather than out in open farmland. For anyone drawn to the authentic side of Cyprus, Deneia offers a calm, close-knit community and an uncomplicated setting where the landscape still has room to breathe. This sale is for a one-third share of the land. A rooted piece of village Cyprus, close to the heart of Deneia and with its own road access.
