Description

Small Development and High-Value Living

The Foundation of Your Future. These two adjacent residential plots in Kato Deftera represent a sophisticated development opportunity in one of Nicosia's most serene and rapidly evolving suburban enclaves. Falling within the H2 planning zone, the property offers a building density of 90% and a 50% coverage factor, providing the technical capacity for a high-value small development of multiple units or spacious custom-designed family residences. This density profile is ideal for a versatile project that balances privacy with investment potential. In March 2026, the Nicosia residential market is experiencing a significant value surge following the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, drastically improving net yields for long-term investors. Furthermore, the 2026 market is characterized by a strong shift toward high-quality suburban living, supported by the government's latest green-building grants and major infrastructure milestones. The plots' superior technical specifications and their placement within a quiet yet centrally located district ensure a secure and appreciating investment, a standard of smart investment we have guided for 3 decades of experience.

Proximity Landmarks Located near the central core of Kato Deftera and the Pedieos River linear park. The plots offer rapid access to the city center via the newly completed Ippokratous-Argyroupoleos-Tseriou road network, which reached full operational delivery in March 2026. This connection provides a vital link to the Nicosia Mall and the primary arterial roads leading directly to the capital's commercial heart, significantly reducing daily commute times.

Strategic Location and Urban Connectivity

The value of this property lies in its placement within a core residential enclave, offering a balanced lifestyle that is perfectly connected to the administrative and commercial heart of the capital via the expanded highway network and the ongoing Phase B3 Nicosia Ring Road enhancements.
