Description

Build the foundation of your future with this exceptional development opportunity located in a prime special-use sector of Engomi. This property is where your vision takes shape, offering a high-yield environment for those who prioritize versatile development potential and a strategic urban presence. Positioned between two roads near one of the city's most significant junctions, this site provides the perfect starting point for a landmark project designed to meet the sophisticated needs of Nicosia's commercial and professional sectors.

High-Yield Development and Strategic Acquisition

Falling within the specialized ΕΠ2 planning zone, this asset is a prime choice for high-yield development and strategic investment. With a substantial building density coefficient of 160% and a coverage factor of 50%, the land offers exceptional potential for the construction of multi-storey buildings suitable for a wide range of high-value uses. These specifications are ideal for maximizing return on investment through the development of professional offices, specialized commercial facilities, or high-density residential modules. Securing a plot with such favorable building factors in a central, well-organized municipality ensures that your development remains a high-value asset for 3 decades of experience.
