Description
Picture days that end with a short drive down to the beach and back. This residential field in Argaka, in the Paphos district, places a relaxed Mediterranean way of life within easy reach, with the sea never far from your plans.

The land covers 1,338 m² in a residential zone, giving you room for a home of your own, shaped around the way you want to live. It is a sensible, sizeable plot on which to begin turning a picture of life in Cyprus's west into something real.

Everyday needs are a short drive away, with shops and supermarkets nearby for the weekly round. Paphos International Airport is about 40 km away, so arrivals and departures stay simple.

A residential plot in Argaka, with the beaches close at hand, waiting for the home you have in mind.
