Description

Family Living and Long-term Investment

The Foundation of Your Future. This 524 sqm residential plot in Kokkinotrimithia represents a premier opportunity for custom home development in one of Nicosia's most rapidly expanding suburban districts. Falling within a residential planning zone with a 60% building density and a 35% coverage factor, the property is perfectly suited for a spacious two-story family residence that prioritizes privacy, garden space, and a high quality of life. In March 2026, the local real estate market has been fundamentally revitalized by the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, drastically improving the net position for long-term investors. Furthermore, the 2026 market is bolstered by the 6th Edition of the Housing Scheme for the Revitalization of Mountainous, Buffer Zone, and Disadvantaged Areas, which launched on March 2, 2026, offering significant financial grants for eligible applicants building primary residences in communities like Kokkinotrimithia. The fact that this property is not subject to VAT and features immediate title deed availability ensures a secure and highly cost-effective acquisition, a standard of smart investment we have guided for 3 decades of experience.

Description Plot for sale in a newly developed area in Kokkinotrimithia. This 524 sqm land is ideally positioned close to all essential amenities including banks, shops, and major supermarkets such as Lidl and Carrefour. Title deeds are available for immediate transfer and the sale is notably not subject to VAT. The 60% building factor is a strategic advantage for those seeking to build a large-scale custom villa or a family compound in a quiet, modern neighborhood, capitalizing on the area's excellent accessibility and growing demand for high-quality suburban living.
