Description

For Sale Touristic Plot In Purgos, Limassol

Strategic Touristic Land Investment in Pyrgos

Experience an exceptional and high-potential real estate opportunity with this premium touristic land parcel, strategically located in the elite, rapidly growing, and beautifully connected coastal district of Pyrgos, Limassol. This property represents a top-tier land proposal, offering a solid, high-value, and remarkably functional asset for custom touristic development, luxury hospitality projects, or long-term strategic holding. Arriving with a generous total area of 3,178 square meters, the plot features a highly desirable rectangular shape with a completely plain and level surface, granting maximum architectural flexibility, efficient land utilization, and straightforward construction preparation. Designed for visionary investors, premium developers, or hospitality brands who demand the perfect balance of a serene coastal environment, expansive building freedom, and seamless connectivity to Limassol's world-class seaside amenities, this asset stands as a prime canvas. Its exceptional position ensures a highly lucrative investment route in one of Cyprus's most exclusive and rapidly appreciating beachfront zones.

Exceptional Development Potential & Premium Coastal Features

The property features an outstanding development footprint spanning 3,178 square meters, meticulously matching rigorous contemporary urban planning standards and optimized for high-end coastal projects. A key premium highlight of this land is its unrivaled proximity to the sea, masterfully positioned just 200 meters from the beach, which ensures high demand, premium value retention, and direct coastal lifestyle integration. Falling within the highly sought-after T3β Touristic Planning Zone, the plot is favored by a 30% building density factor and a 25% building coverage factor. According to its official zoning metrics, it allows for the construction of a prominent touristic structure spanning up to 3 floors with a maximum building height allowance of 13.5 meters, providing that all necessary building uses and development conditions are fully met.

The plot is strategically situated within a short distance of a main public road network, ensuring smooth logistical access, and is located immediately near main public utilities. As is standard with premium undivided land developments, final building parameters will depend on proximity to infrastructure, administrative boundaries, and the necessary allocation or deduction of relevant green areas, public roads, and utility corridors required to enable official development pathways.
