For Sale : **€ 0**

**Description**
A generous field of residential land in Psimolofou offers the chance to shape a home around village life, with Nicosia's countryside all around. With 1942 m² to work with, there is space to plan a house that suits the way you live, from the layout of the rooms to the outdoor areas you picture around it. The residential zoning makes a family home the natural use here. Everyday needs are well covered. The village centre is a short drive away, as are schools, supermarkets and shops, restaurants and cafés, petrol stations, parks and green spaces. Neighbouring Anagia is close by too, and the main roads lead out towards the wider area, with motorway junctions, a medical centre or pharmacy and sports venues all within a drive. It brings together authentic Cypriot village life and the practical convenience of good connections. This land is offered as part of a wider group of properties rather than on its own. Above all, it is a well-proportioned piece of residential land in a village setting with a strong local identity, and a place to begin something of your own.
