Description
A field of 2007 m² set in open countryside outside the village of Lythrodontas, in the Nicosia district. The ground slopes and the plot has an irregular shape that follows the natural lie of the land. It has no direct road access. The village centre and petrol stations are a short drive from the area, and the neighbouring villages of Mathiatis and Kapedes are within a drive. This is a piece of the Cypriot countryside, in a landscape away from dense urban development.
