For Sale : **€ 144,000**

Description
Agia Napa sets the scene for this residential field, where the sea lies close by and an evening stroll can take you to restaurants and cafés or to the Ayia Napa International Sculpture Symposium, a heritage site within walking distance. It is a setting where the pleasures of the coast are part of everyday life rather than a special trip.

The land is level and irregular in shape, with a long frontage that gives it direct road access. Its residential zoning gives it a clear general use: homes, in a town where beaches, shops and the town centre are all a short drive away.

Picture the rhythm of life here. You could have a morning by the water, an afternoon at one of the parks or sports venues nearby, then dinner within walking distance as the day cools. Larnaca International Airport is about 35 km away, so the coast is easy to reach from abroad.

The sale is for a 1/4 share of the field. What stays with you is the location: residential land in Agia Napa, with the sea close at hand.

Details

Property Type: **Land**
Status: **Available**
Website

Main Features

Property Subtype: **Field**
Town Planning Zone: **Residential**
Height: **10**

Area

Plot Area: **4,326m²**
