For Sale : **€ 1,454,000**

Description
On the Latsia side of Dali, in the quarter of Panagia Evangelistria, lies a large stretch of industrial land with a generous frontage along a public road. That frontage gives the land direct road access, and its smooth surface and south-facing aspect make it easy to read on a first walk across it.

Most of the land falls within an industrial zone, suited to business use, while a smaller part is agricultural, suited to farming. Its outline is irregular, and its 22,232 m² give a real sense of scale once you stand at the roadside and look across it.

The setting is practical. Latsia is close by, and motorway junctions are easy to reach from the area, so this part of Nicosia district stays well connected. Everyday needs are a short drive away in the surrounding communities.

A sizeable, smooth-surfaced field with a long road frontage, mostly zoned for industry, in a well-connected corner of Dali.
