

For Sale, Land, Field, Nicosia, Strovolos, 1,326m²

Right beside the main roads of Strovolos, in the established...

For Sale : **€ 648,000**

Description
Right beside the main roads of Strovolos, in the established Apostolos Varnavas and Agios Makarios quarter, this commercial field sits in a suburb where daily life runs at a steady pace. Cafés and shops are within walking distance, and the motorway and the centre of Nicosia are both within easy reach.

The land measures 1,326 m² and is almost rectangular, with an even surface that is simple to plan around. It fronts roads on two sides, so it has direct road access from both. Most of the land lies in a commercial zone and suits business use, while a small part is zoned residential.

Picture a business here, with its front on a main road and a lived-in neighbourhood all around, close to the homes, schools and shops that keep the area moving. It is a setting that serves customers and staff alike, with the wider city a short drive away.

A level, well-shaped commercial site, open on two sides, in the everyday heart of Strovolos.
