Description
Close to the Frenaros industrial area, this field gives a business a foothold in a Famagusta village. With 3,939 m² of land, there is real room to plan.

Most of the land lies in an industrial zone, which suits business use. Part of it is agricultural and suits farming. The ground slopes and has an irregular outline, so a careful look on site will help shape any plans.

Life in Frenaros keeps everyday needs close. The village centre is a short drive away, and the neighbouring villages of Sotira and Liopetri are just as near, with Paralimni Lake also within easy reach for a breath of open air after a working day.

The land has no direct road access.

A sizeable stretch of mostly industrial land near the village's industrial area, in the heart of Famagusta's farming country.
