For Sale : **€ 23,000**

Description
Village life in Skarinou starts just steps from this residential field. It sits close to the heart of the community, with supermarkets and shops right beside it, so daily errands stay simple and the rhythm of the village is all around.

The land is flat and regular in shape, an easy canvas to picture a future home on. Its 599 m² give room for a home set within the familiar fabric of a Larnaca village, among neighbours and local life.

Beyond the village, the landscape offers a closer connection to nature. The Dipotamos Reservoir is a short drive away, and so are the neighbouring villages of Choirokoitia and Kofinou, along with restaurants, cafés, parks and green spaces. Schools are a drive away.

Level residential land near the centre of Skarinou, with village shops on the doorstep and open countryside a short drive beyond.
