For Sale : **€ 33,000**

Description
Everyday Cypriot village life sets the tone in Giolou, where restaurants and cafés are within walking distance and the community centre is close by. This residential field sits in that welcoming setting, a sizeable stretch of land with room for a home in a village that still feels honest and unhurried.

The land has a sloping surface and an irregular shape. It is reached by an unregistered road. Its residential zoning points to its plain purpose: a place to plan a home within easy reach of village life.

Beyond Giolou, the neighbouring villages of Theletra and Miliou are a short drive away, and so is Evretou Lake, a natural spot for slow afternoons by the water. Supermarkets and shops are also a short drive away for daily errands.

The sale is of a 1/3 share of the field. What stays with you is the village itself: coffee within walking distance, the community close at hand, and a sizeable piece of land in authentic Cypriot surroundings.
