For Sale : **€ 3,000**

Description
In the village of Troulloi, in the Larnaca district, this residential field for sale sits within a setting shaped by authentic Cypriot village life. A slower pace and a close-knit community still set the rhythm of the day here, a genuine alternative to city or resort living.

The land covers 1004 m², with a regular shape and an even surface. That is honest, uncomplicated ground that makes planning feel straightforward. It has direct road access, and its residential zoning points clearly to its natural use: a home in the village. The village centre and the local community stadium are both within easy reach, so everyday life stays close at hand.

Picture a family home rising on level land, with the familiar sounds and faces of Troulloi around it and the relaxed island lifestyle on the doorstep. This sale is for a one-ninth share of the land.

Level ground, a regular shape and direct road access, all within traditional village surroundings, make this a field with real promise for village living.
