Description
Set among the open countryside of the Larnaca district, this residential field for sale in Troulloi offers space and a strong sense of place, an authentic alternative to city or resort living. Spread across 25,753 m² of even ground, it is land that invites you to picture a home in a landscape-led setting.

Troulloi itself carries traditional village charm, with neighbouring Avdellero and its restaurants and cafés a short drive away. Supermarkets, schools, a medical centre and sports venues are all within a drive, as are the villages of Kellia and Oroklini. Both the Larnaca to Agia Napa and the Nicosia to Larnaca motorways can be reached by car, so the coast, the town and the capital all stay within comfortable reach.

The zoning is residential, giving the land a clear and uncomplicated purpose. This sale is for a one-ninth share of the field.

Wide, level land in a Larnaca village setting, with everyday life close at hand and the authentic side of Cyprus all around.
