For Sale : **€ 50,000**

Description
The sea lies only a short distance away, and the village of Nea Dimmata gathers around this residential field in the Paphos countryside. Here, the coast and everyday village life sit side by side, and it is easy to picture a home taking shape on this land, with the rhythm of the community close at hand.

The field covers 4,059 m² on sloping ground, and a long frontage onto a public road gives it direct road access. Its residential zoning means room for a home, on land with its own natural lie that a thoughtful design could follow.

Life beyond the boundary has its own pleasures. Pomos and the green surroundings of Pomos Reservoir are a short drive away, for unhurried afternoons outdoors and an easy change of scene. The sale is for a 1/4 share of the field.

An unpretentious piece of residential land, close to the sea and within a living village, where a sense of place comes first.
