For Sale : **€ 9,000**

Description
Close to the village church of Lasa, in the Paphos district, this residential field places you within the everyday life of a Cypriot community. Here the church stands at the heart of things, and the village of Lasa sets the tone for life on this land. Covering 1,756 m², the land lies in a residential zone, giving room for a home in a village setting. Its irregular outline and sloping surface give it a character of its own, so any plans would follow the natural lie of the land rather than a flat, uniform plot. The field meets a registered road at a narrow point along its edge, so it has direct road access. Life beyond the village stays within easy reach. Neighbouring Thrinia and Milia are a short drive away, as are schools and supermarkets for the weekly shop. The sale is for a 1/3 share of the field. What stays with you is the setting: residential land with its own slope and shape, a short walk from the church that anchors Lasa.
