

For Sale, Land, Field, Nicosia, Latsia, Agios Georgios, 4,850m²

In Latsia's Agios Georgios quarter, a residential field of 4...

For Sale : **€ 200,000**

Description
In Latsia's Agios Georgios quarter, a residential field of 4,850 m² lies within walking distance of local schools, with the everyday life of the municipality all around it.

The land fronts a public road on two of its sides, giving it direct road access and a generous presence along the street. Its irregular outline and sloping surface give the ground a natural character, and its residential zoning leaves room for a home designed around the lie of the land.

Picture mornings when the school run is a short stroll rather than a drive, with shops, cafés and the Nicosia–Limassol motorway all a short drive away when the day takes you further afield. It is a setting where family routines stay close to home, yet the wider island remains easy to reach.

The sale is for an 11/18 share of the field. Two road frontages, schools within walking distance and room for a home in Latsia make this a piece of land with real promise.
