Galata keeps everyday village life close at hand,
and this r...

For Sale : **€ 30,000**

Description
Galata keeps everyday village life close at hand, and this residential field lies within it, with the village centre within walking distance. Kakopetria and the Troodos National Forest Park are both a short drive away, so the countryside and a neighbouring village are always within easy reach.

The land covers 2,007 m² of sloping ground with an irregular shape, and its residential zoning offers room for a home among authentic village surroundings. The land has no direct road access.

Here, a home could one day take shape on the slope, with the life of Galata around it and the forest park near enough for unhurried weekends outdoors. A relaxed rural setting and a welcoming village make this a piece of Galata to call your own.
